STATE DEPARTMENT OF AUDIT

Augusta

February 14, 1962

Board of Selectmen
Steuben,
Maine

In accordance with Chapter 90-A, Revised Statutes of 1954, an audit has been conducted of the financial records of the Town of Steuben for the fiscal year ended December 31, 1961.

The examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting. The audit analysis was on a basis consistent with that of the preceding year, and included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances.

The financial and statistical sections incorporated in this report, subject to the accompanying comments, present the results of the Town's financial operations for the period indicated.

COMMENTS

Town of Steuben

January 1, 1961 to December 31, 1961

An audit of the financial records of the Town of Steuben has been completed for the fiscal year ended December 31, 1961. The audit consisted of an examination of the records maintained by the Selectmen, Treasurer, Tax Collector and other municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$1,446.29, per the following summary:

Departmental Operations:	
Unexpended Balances	\$3,688.88
Overdrafts	2,242.59
Net Unexpended Balance	\$1,446.29

The unappropriated balance of excise tax revenue, the overlay and supplemental taxes, and the unexpended balance in the welfare account were the major factors contributing to the amount lapsed to surplus. The larger overdrafts occurred in the administration, highway department and abatement accounts.

The following comments pertain to the accompanying financial statements and to the scope of audit.

Assets

The general fund cash balance of \$2,715.09 was on deposit in the Union Trust Company, Ellsworth, Maine at December 31, 1961.

Accounts receivable of \$1,667.74 were comprised principally of prior years' accounts totaling \$1,414.40 the collection of which is doubtful. A reserve of \$1,-298.60 for possible losses has been established. Admin-

istrative action should be taken to liquidate these unpaid accounts.

Taxes receivable of \$4,884.34 consisted of unpaid current year assessments.

Tax liens and tax acquired property totaled \$1,324.62 and \$710.25 respectively.

Liabilities, Reserves and Surplus

The appropriation accounts showed an unexpended balance of \$2,929.30, representing education and state aid road construction account balances, which have been carried forward in accordance with legal requirements.

The unappropriated surplus amounted to \$6,734.67, an increase of \$1,225.18 for the year. The charge was occasioned principally by the net unexpended departmental balance lapsed and a state reimbursement for veterans' tax exemptions, less authorized transfers for repair of bridges.

Trust Funds

Trust fund principals totaled \$1,200.00 and unexpended income amounted to \$35.20 at the year end. These funds are on deposit in the First National Bank, Bar Harbor, Maine and the Union Trust Company, Ellsworth, Maine.

Debt Fund

The debt fund, incorporated in the balance sheet as a separate fund, reflects the school building notes which are to be retired over a period of twenty years at 4% interest.

Departmental Accounts

The departmental operating accounts showed an increase of \$289.12 in funds raised by taxation, as compared with the preceding year.

The departmental balances carried forward to the

Annual Town Report

7

ensuing year exceeded by \$2,855.79 the balances carried at the start of the year. The change occurred in the education and state aid road accounts.

General

The townspeople authorized a \$3,000.00 transfer of excise tax revenue to reduce the tax levy and transfers of \$1,400.00 from surplus for repair of bridges. Also authorized was the issuance of notes to finance school construction.

Scope of Audit

The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depository or by bank confirmation. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and canceled checks were examined for a selected period.

Excise tax collections were verified with copies of receipts retained by the collector. Education account balances were reconciled with the Superintendent of Schools. Trust fund transactions were examined and investments verified. Surety bond coverage was reviewed.

In our opinion, subject to the foregoing comments, the accompanying statements and supporting information present fairly the financial position of the Town at December 31, 1961, and the results of its operations for the year then ended.

ANNUAL REPORT FOR STEUBEN**Public Health Nursing Service****January 1 through December 31, 1961**

The general purpose of public health nursing is to help people and the community as a whole to achieve and maintain optimum health. Your public health nurse carries out this purpose by giving preventive, therapeutic, and rehabilitative services to individuals and families in their homes; through health services in schools; and through organized community programs for prevention of illness and promotion of health.

Two Child Health Conferences were held at the Parish House for pre-school children. These conferences gave the parents, with children under six, an opportunity to have them inoculated against Diphtheria, Whooping Cough and tetanus and receive a physical examination. Fifty-two children attended these conferences. Fourteen children either completed their series or had boosters of diphtheria, pertussis and tetanus. Fifty-four children received inoculations of the Salk vaccine against poliomyelitis and seventeen received Smallpox vaccinations.

Many home visits have been made to infants, pre-school, school children and adults where health supervision and consultation were needed.

It has been my pleasure to serve your community and I wish to thank all of the citizens of the community for their help and interest in your health activities.

Respectfully submitted,

BEATRICE S. NORTON

STEUBEN SCHOOL REPORT

At long last Steuben boys and girls are now enjoying the benefits and pleasures of a new modern school building, second to none for its size anywhere. The big job has been done and much credit is due a building committee which overcame many setbacks in order to reach its goal. These men are: Handy Pinkham, chairman, Lawrence Stanwood, Edgar Grant, Frank Joy, Roger Smith, Leroy West and Fred Gosten. Recognition is also extended to Mr. J. C. Webber, contractor, and to Mr. Siminean Sawyer, architect, for their share in this job well done.

This new school is, in a sense, symbolic of the beginning of a new era in education for the youth of your town. Now that the physical phase of such a development has been realized, attention can be directed toward the quality side of the program. This can and will come, through better organization, new methods, and attention to details having to do with an improved testing program, guidance, hot lunches, physical education and the like.

But hand in hand with these gains, both physical and professional, must come yet another advance, if real progress is to be attained. This concerns primarily, the pupil as an individual. It is becoming increasingly evident that today's youth must share some of the responsibility in this attempt at family, school and community betterment.

The good schools can and will demand more pupil effort, more personal responsibility, for each one's own progress from grade one through high school, and a deeper awareness that pride, both individual and family, is an important factor in identifying attitudes and behavior, in school and out.

Higher standards must be developed on each grade level, and the requirements so determined that earned

promotion will come to represent tangible achievement not just "get by" exertion of questionable degree.

In closing may I congratulate you, the citizens of Steuben, for your willingness to go all the way, financially speaking, in order for this new school building to become a reality. To be sure, it was needed, but none the less without your cooperative support it would not have happened. I am certain that this worthwhile accomplishment will point the way for even more gains to come, as you work harmoniously together for the welfare of your community and its young people.

R. H. HASKINS, Supt.

REPORT OF STEUBEN

SCHOOL BUILDING COMMITTEE

At last, after 5 years of a hard fought battle we have won. We now have a new Elementary Grammar School. The building committee wishes to thank each citizen of Steuben for their support and the faith which they had in us. The Building Committee feels that much of the credit goes to I. W. Parritt, Sr., who has gone all the way with us in helping any way he could, also all the other town officials. We feel that the decisions we have made have been for the benefit of the town in the long run. Once again we would like to thank you.
